Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372:

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:

- I. Claims 1-4 and 6-10, drawn to a monomer protein comprising an amino acid sequence of SEQ ID NO: 2 belonging to TGF- β family or agent for preventing and treating disease affecting bone and/or cartilage.
- II. Claim 5, drawn to a method making monomer protein comprising host cell, DNA, plasmid.
- III. Claims 11-12, drawn to a method of treating osteoporosis using a monomer protein of SEQ ID NO: 2.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Art Unit: 1644

Amatatayakul-Chantler *et al* (Mol. Endo 8(3): 325-332, 1994; PTO 1449) teach a monomer protein such as Activin A, belonging to the TGF β superfamily, comprising an amino acid sequence (See Fig 7, page 329, in particular) of which cysteine (residue 80) related to a dimer formation of the protein has been replaced with another amino acid such as Alanine (See entire document, page 329, column 2, in particular).

Since Applicant's inventions do not contribute a special technical feature when viewed over the prior art they do not have single general inventive concept and lack unity of invention.

5. Accordingly, Groups I-III are not so linked as to form a single general inventive concept and restriction is proper.
5. Due to the complexity of the claimed invention an oral restriction was not made.
6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (703) 308-4844.
